

Color Splash Daylily*
Hemerocallis 'Color Splash'

Height: 18 inches

Spread: 14 inches

Spacing: 10 inches

Sunlight:

Hardiness Zone: 5a

Description:

Bright pink trumpets with creamy white stripes and lightly ruffled petals; great grassy texture and form; diploid; a noticeable color addition to the garden or border

Ornamental Features

Color Splash Daylily features bold pink trumpet-shaped flowers with yellow throats and creamy white stripes at the ends of the stems in early summer. The flowers are excellent for cutting. Its grassy leaves remain green in colour throughout the season. The fruit is not ornamentally significant.

Landscape Attributes

Color Splash Daylily is an herbaceous perennial with a shapely form and gracefully arching foliage. Its medium texture blends into the garden, but can always be balanced by a couple of finer or coarser plants for an effective composition.

This is a relatively low maintenance plant, and is best cleaned up in early spring before it resumes active growth for the season. It is a good choice for attracting butterflies to your yard. It has no significant negative characteristics.

Color Splash Daylily is recommended for the following landscape applications;

- Mass Planting
- General Garden Use
- Groundcover

Planting & Growing

Color Splash Daylily will grow to be about 14 inches tall at maturity, with a spread of 14 inches. When grown in masses or used as a bedding plant, individual plants should be spaced approximately 10 inches apart. It grows at a medium rate, and under ideal conditions can be expected to live for approximately 10 years.

This plant does best in full sun to partial shade. It is very adaptable to both dry and moist locations, and should do just fine under typical garden conditions. It is not particular as to soil type or pH. It is highly tolerant of urban pollution and will even thrive in inner city environments. This particular variety is an interspecific hybrid. It can be propagated by division; however, as a cultivated variety, be aware that it may be subject to certain restrictions or prohibitions on propagation.
